

## **10 Top Tips for Exam Success in Food & Nutrition**

### Prior to the exam:

1. Start revising early.
2. Underline parts of the Specification to identify key areas for revision.
3. Compartmentalise your revision into short 30 minute chunks.
4. Practice past exam paper questions and learn the mark schemes.
5. Get a parent/carer/friend to test you.

### When answering exam questions:

6. Read the question carefully, making sure you read the whole question.
7. Underline the command words so you know what you are being asked to do.
8. Underline key words and figures in the question.
9. Check the number of marks that each question awards.
10. Use relevant key scientific terminology in your answer.
