

Government urged to ban energy drinks for under 16's

Connect

The label on the side of cans says they're 'not recommended for children' but they're consumed by 68% of adolescents and 18% of under 10s.

To understand the problems associated with under 16's drinking energy drinks and conduct a class debate on the issue.

Big Picture

Activate

I have to stay sharp, energetic and focused all the time, whether it is before, during, or after a tough session on the water. Red Bull helps me do that.”

WHAT'S INSIDE

CAFFEINE + TAURINE + B-GROUP
VITAMINS + SUGARS + ALPINE WATER.

Red Bull Energy Drink's special formula contains high quality ingredients.

Ban energy drinks ??

Demonstrate

Use the information sheets given to you, laptops and textbooks to form your argument for the debate.

During the debate you may be cross examined by your opponents and/or the teacher – be prepared!

Create a list of points you could raise - to **justify** your opinion.

Write a short speech, summarising the main points that you can read out at the beginning of the debate.

Create a campaign: Banners, slogans, advertisements, flyers, etc.

WE CAN DO IT
