You can include opinions from reputable websites to back up your own ideas • Use a PEEL (point>evidence>explanation>link) structure to ensure your points are relevant and well substantiated • You should reference any websites you use at the bottom of your work, using footnotes. For example: <ul style="list-style-type: none"> ○ We want our students to grow as individuals with ambition, resilience and courage (1). <u>Reference</u> 1. https://www.goffs.herts.sch.uk/251/school-vision-and-ethos • Remember to explore both sides of the argument in your answer • Finish with a conclusion that summarises your findings and gives a clear indication of which side of the argument you agree with most (no sitting on the fence!)

Textiles	<p>Hello everyone!</p> <p>Many thanks to those of you who have sent me some work via email and let me know which question you have chosen for the mock NEA. <u>If you haven't already done so, please can you catch up on this work and email it across.</u></p> <p>Over the next few weeks you should be completing additional research based on the question you have chosen.</p>

The PowerPoint that you were sent has exemplars of different types of research but it's up to you to decide what is the most appropriate!

For example; if you have chosen the sustainability brief you might want to research H&M's eco collection or do some research on Greta Thunberg.

Another example might be to look at the RNLI website and see what items they have for sale.

Alternatively, you could research into what items people use when hiring an outdoor cinema in their back garden etc etc.

I have given you lots of information on the audio PowerPoints but just to reiterate - you...

- a) Cannot make something that's already existing- i.e. a waterproof jacket (if you could creatively adapt this then this would be fine)
- b) You cannot make something super simple like a blanket or cushion cover- you simply wouldn't meet the marking criteria
- c) You need to ANALYSE all of your research (*e.g.; My client is a surfer and will swim in the sea all year round THEREFORE I need to design and make something that is waterproof and warm*)

Please email lab@goffs.herts.sch.uk with your completed research work and any questions you might have.

Good luck!
