

Year 7 Summer School

Selected Year 7 students were chosen to take part in a Summer School in July. This was a fantastic opportunity for our new Year 7 students to get to know each other through fun team building activities. Students were taken to Edge Activity centre and took part in archery, the high ropes course and zip wire, as well as other fun games. Students also took part in a football coaching session during the week and there were many opportunities for students to win some fantastic prizes. We were also visited by a very inspiring Theatre practitioner who ran a transition workshop to help students to feel confident about moving from Primary to Secondary school.

We finished the week with a talent show and an awards afternoon with everyone receiving a certificate and winning prizes. Some students were awarded with vouchers for their fantastic contribution during the week. Well done to all of our enthusiastic students who got involved and made the Summer school a very enjoyable week.
