

Year 13 BTEC IT L3: Summer Task (Unit 5 Data Modelling)

Use the attached resources on doddle and the hand out from class to complete the presentation with speaker notes for **Learning Aim A: Investigate data modelling and how it can be used in the decision-making process.**

Learning Aim A is made up of the following:

- A.P1 Explain the stages involved in the decision-making process for data modelling.
- A.P2 Explain how the features of spreadsheet software are used to support the decision-making process.
- A.M1 Analyse how the features of spreadsheet software contribute to the decision-making process.
- A.D1 Evaluate how the features of spreadsheet software contribute to the decision-making process.

You must complete all Pass, Merit and Distinction tasks listed above and printout a copy of your work ready to submit by your first lesson back after the summer break.

Note: you must print out your presentation as notes pages
